

Salma SAID

Data Engineering & Artificial Intelligence Student

salma2003said@gmail.com | +212 622918403 | El Jadida, Morocco
[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Profile

Final year Data Engineering and Artificial Intelligence student with experience in data science, machine learning, big data pipelines, RAG systems, and backend development using Python and Java.

Education

Data Engineering Cycle ENSA El Hoceima	2024–Present
Integrated Preparatory Classes ENSA El Hoceima	2022–2024
Computer Engineering Higher School of Technology of Casablanca	2021–2022
Baccalaureate in Physical Sciences	2020–2021

Professional Experience

OCP Group / PMP Jorf Lasfar, El Jadida	Aug–Sep 2026
Data Science & Business Intelligence Intern	

- Developed a Python decision-support pipeline using **1,591 SAP MM transactions across 603 spare-part items** for ABC–XYZ segmentation, forecasting, anomaly detection, and replenishment risk analysis.
- Designed a star-schema model and a **6-page Power BI dashboard with 25 DAX measures**, including automated data quality checks.

Tech Stack: Python, Pandas, Power BI, DAX, SAP MM, ABC–XYZ, Forecasting, Data Modeling

CMRPI EMC Helpline, Kenitra	Jul–Aug 2026
-------------------------------	--------------

AI & Data Engineering Project – Multilingual Cyberviolence Support Chatbot

- Built a multilingual RAG chatbot supporting French, Arabic, and Moroccan Darija using a curated Morocco-specific legal, psychological, and emergency knowledge base.
- Implemented crisis detection, adaptive responses, RTL support, and containerized deployment, with a FastAPI backend validated by **158 passing tests**.

Tech Stack: Python, FastAPI, LangChain, Gemini, ChromaDB, RAG, React, TypeScript, Docker, Nginx

OCP Group Jorf Lasfar, El Jadida	July 2025
------------------------------------	-----------

Data Scientist Intern

- Built an employee attrition pipeline using feature engineering, Logistic Regression, Random Forest, and K-Means clustering.
- Created a Streamlit dashboard integrating **2 predictive models and 1 clustering model** for real-time attrition predictions and HR analytics.

Tech Stack: Python, Pandas, Scikit-learn, Logistic Regression, Random Forest, K-Means, Streamlit

Academic Projects

Job Intelligent – Candidate Job Matching Engine – Built a semantic recruitment platform for intelligent candidate-job matching.

Tech Stack: Gemini, BERT, FAISS, Airflow, FastAPI, Scrapy, PostgreSQL

TaaSim – Urban Mobility Platform – Built a taxi-demand forecasting and real-time mobility data processing platform.

Tech Stack: PySpark, Kafka, Flink, Cassandra, FastAPI, Grafana

Real-Time Weapon Detection – Built a real-time video detection system combining deep learning and visual explainability.

Tech Stack: YOLO, Swin Transformer, SAHI, Grad-CAM, FastAPI, React, WebSockets

Certifications

- | | |
|---------------------------------------|-------------------------------------|
| • OCI 2025 Data Science Professional | • Oracle Java SE 17 Developer |
| • Oracle Cloud Database Services 2025 | • OCI 2025 AI Foundations Associate |
| • DataCamp Associate Data Engineer | • 365 Data Science LLM Engineering |

Technical Skills

Programming:	Python, Java, SQL, C
Data & AI:	Deep Learning, Machine Learning, NLP, LLMs
Data Engineering:	Spark, Kafka, Flink, Hadoop, Airflow
Databases:	PostgreSQL, MySQL, MongoDB, Cassandra, Oracle
Software & DevOps:	Spring Boot, Docker, Git, REST APIs, Maven

Languages & Activities

Languages: Arabic – Native | French – Professional Proficiency | English – Professional Proficiency

Soft Skills: Communication | Teamwork | Problem Solving | Adaptability | Leadership

Activities: Data & AI Club Member | Moroccan Data Scientists Community Member
